KAMRAN RIYAZ

PERSONAL PROFILE

A skilled web developer. Strong team player with excellent problem-solving abilities and effective communication skills. Committed to delivering high-quality solutions, enhancing user experiences, and optimizing performance. Passionate about continuous learning and contributing to impactful projects.

WORK EXPERIENCE

FULL STACK DEVELOPER | JUN 2023 - JUL 2024
Kaizen Systems

- Developed and optimized client websites, increasing user engagement by 50% through responsive design and intuitive UI using HTML5, CSS3, Bootstrap, JavaScript, and PHP.
- Created a solar energy company website, promoting eco-friendly products and improving customer engagement.
- Collaborated with cross-functional teams to conduct testing and feedback sessions, iteratively improving website functionality and user experience.

INSTRUCTOR | JUN 2022 - JUN 2023
Hatsgold

- Founded Hatsgold, a computer training center, delivering foundational computer knowledge and practical web development skills to many students.
- Guided students through hands-on projects, helping them develop proficiency in HTML, CSS, JavaScript, and web design principles.
- Delivered lessons, fostering professional development for tech careers.

SOFTWARE ENGINEER INTERN | OCT 2021 – JAN 2022
Software Research

- Developed a web application for a US-based client using HTML, CSS, JavaScript, Java, JSP, Dojo, and PostgreSQL, resulting in a 90% productivity increase.
- Managed both front-end and back-end development, ensuring timely delivery and improving project efficiency by 15%.
